Summary

Innovative, task-driven web developer with 1+ years of experience in MERN Stack development. Proficient in building dynamic web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in developing RESTful APIs, integrating frontend and backend systems, and implementing responsive UI using React and JavaScript. Experienced in troubleshooting, optimizing performance, and deploying projects on servers.

Skills & Expertise

- **Backend Development:** Node.js
 - **Frontend Development:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
 - **Database Management:** MongoDB, SQL
 - **Deployment & DevOps:** AWS, Git, GoDaddy
 - **Additional Skills:** API Development, RESTful API Integration, Debugging & Performance Optimization
-

Experience

Associate Software Eng.

Varilligence Technologies –

Oct 2024 – Dec 2025

- Led the end-to-end development of full-stack web applications, managing the entire project lifecycle from planning to deployment.
- Developed responsive and scalable user interfaces using ReactJS, Tailwind CSS.
- Built and maintained RESTful APIs and CRUD operations using Node.js, Express.js, and MongoDB.
- Integrated backend APIs with frontend components, efficiently managing state and side effects using React Hooks.
- Implemented JWT authentication, and dynamic routing with React Router.

- Deployed and maintained full-stack applications on AWS, configured domains via GoDaddy, and ensured smooth production performance.
- Designed reusable and modular UI components for a consistent and maintainable interface.
- Guided team members, assigned tasks, reviewed code, and ensured timely project delivery.

Logistic Services

Logistics Management Platform using React.js and Microfrontend Architecture

- Developed a scalable logistics management platform using React.js for the frontend.
- Implemented a microfrontend architecture to modularize features, allowing independent development and deployment of components.
- Integrated Redux for efficient state management, ensuring consistent data flow across multiple microfrontends.
- Improved maintainability and accelerated integration of logistics modules such as shipment tracking and order management.
- Enhanced user experience with responsive layouts and optimized frontend workflows.

E-Commerce Platform

Advanced E-Commerce Management System using React.js, Node.js, and MongoDB.

- Engineered a scalable e-commerce management system using React.js for the frontend and Node.js with Express.js for backend services.
- Implemented JWT-based authentication and role-based access control for secure user and admin interactions.
- Designed modular product management features including dynamic category, subcategory, cart, checkout, and order tracking modules.
- Integrated Redux for global state management, ensuring high performance and consistent UI behavior across components.
- Enhanced performance and user experience through optimized API calls, reusable components, and Tailwind CSS-based responsive layouts.

Education

Master of Computer Application (MCA)

Shivaji University, Kolhapur (2022 - 2024)

First Class With Distinction (75%)

Bachelor of Computer Application (BCA)

Shivaji University, Kolhapur (2019 - 2022)

First Class With Distinction (78%)

Technical Experience

- **Node.js:** 1 Year
 - **React.js:** 1 Year
 - **MongoDB:** 1 Year
 - **AWS:** 1 Year
